

The image shows a technical drawing of a 'TRIM AREA'. The area is a roughly rectangular shape with a curved bottom-left corner, filled with diagonal hatching lines. The text 'TRIM AREA' is centered within this hatched region. To the right of the hatched area, there is a dashed line and a north arrow symbol (a circle with a cross inside). Below the dashed line, the text 'N 37° R.19' is written vertically. The entire drawing is enclosed in a solid black line.

TRIM AREA

N 37° R.19
